- Front in depth adjustable 19" profiles (max 410 mm)
- Punched square holes for use with snap-in cage nuts

► Description

The WPR406 is a professional 19" wall mountable metal rack compliant to ANSI/EIA RS-310D, DIN41491, IEC 60297 standards. It is a solid construction with a cold rolled steel 1,5 mm thick frame and 1,2 mm thick plates. The WPR406 comes fully assembled and can easily be mounted on the wall. The 19" mounting profile with punched square holes for use with snap-in cage nuts in combination with the printed unit measurement indicators ensure easy fitting of the equipment. The tempered smokey grey glass door is fitted with a keylock to keep the equipment accessible for authorized persons only. The removable sides allow easy installing and cabling of the equipment while the in depth adjustable 19" profiles provide great flexibility for installing equipment depending on its depth. Rack can also be placed on the ground.
