

► Features

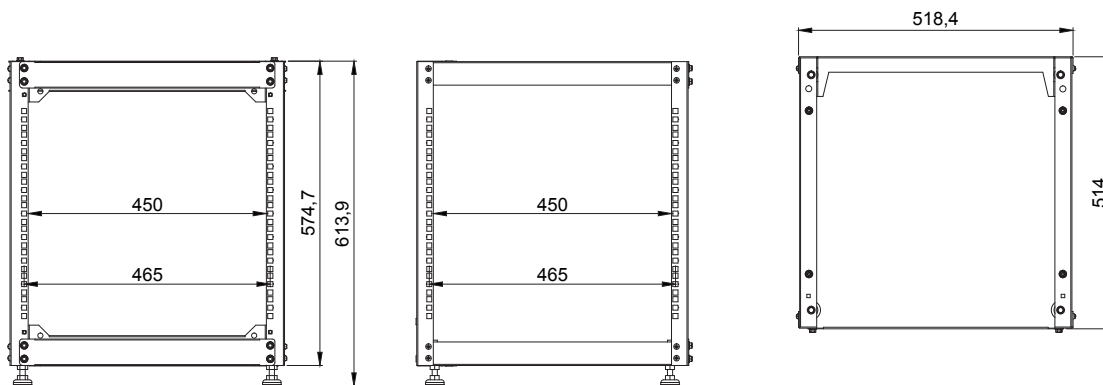

- Stores up to 9 units of 19" equipment
- Floor standing & wall mounted use
- Solid constructed (2.5 mm steel)
- Loading capacity up to 400 Kg
- Unrestricted air flow due to open-frame design
- Stand alone & in-furniture integration
- Assembly in record-breaking time by a single person
- Ships as flat-down package

► Description

The OPR509 is a professional and solid constructed open-frame rack for 19" equipment compliant to ANSI/EIA RS-310D, DIN41491 and IEC60297 standards which is suitable for wall mounted or floor standing installation. It ensures maximum installation, connectivity and maintenance ease storing up to 9 units of 19" equipment. The rugged construction made of 2.5 mm thick steel allows pre-loading of the equipment before transportation to the installation site. Finishing is done in a black (RAL9004) powder coating with fine structure while punched equipment mounting profiles on front and both sides offer a multifunctional use of the cabinet. Delivered in a flat-down package, the simple structure allows assembly by a single person in a record-breaking time.
